

Dear the member of IVV Presidium:

We had an informal meeting of IVV-Asia in Tokyo twice on the 1st and 3rd of November, 2017. In the meeting, president or vice-president of the member country of IVV-Asia agreed with the proposal that Korea hopes to hold "2021 IVV Olympiad" in the Capital City (Seoul).

According to this agreement, as a president of IVV-Asia, I would like to recommend Seoul for the candidate city of "2021 IVV Olympiad".

The main reasons are as follows;

1. IVV Olympiad has been held in order such as 2007 Estonia, 2009 Japan, 2011 Turkey, 2013 Italy, 2015 China, 2017 Germany, 2019 in France. At a glance to this order it is proper that "2021 IVV Olympiad" will be held in Asia (or America) out of Europe.
2. There are many developing countries in the South-East Asia which do not yet join in IVV. In the last several years, economic power of those countries has risen so rapidly that the income of people is increased, and they may become interesting in exercise walking for their health promotion. It will be a good chance to invite the South-East Asian countries to the member country of IVV, if "IVV Olympiad" will be held in Korea in 2021.
3. "Korean International Walking Festival" has been held every year for the last 10 years in Seoul. There are many attractive walking routes (5, 10, 25, 42km), long cycling road along the big Hangan river, and indoor swimming pool. So it is sure for the officers of IVV-Korea to be able to organize well "IVV Olympiad".
